

for the record

**Have you ever been in a recording studio?
Heard yourself on disc?
Ever wanted to be a pop pop-star?**

Well we can't promise to turn you into a pop star but Big Beat can provide you with the fun and exciting opportunity to record your own compact disc.

In one day Big Beat will take a group, compose and rehearse, record and produce a 3-4 track Latin style CD.

See overleaf for more information on our CD stunner.

OPTION 1

The group will learn an authentic Brazilian drumming piece like a Samba or a Samba-Funk, 1-2 Brazilian songs which will be accompanied by percussion and rehearsed before recording in a professional studio or on site using mobile recording equipment. The recordings are mastered and a final printed CD produced for each person.

OPTION 2

Using a recording studio this can be achieved in 1-2 days with a small group of up to 15 people. Big Beat will work in depth with the group to produce a 4-5 track CD including other percussion instruments from around the world. This is a thrilling chance to experience the workings of a recording studio and the process of creating your own CD, a perfect teambuilding method where the group works closely together under expert guidance. Leaving you with a truly memorable experience.

Added options:

- Work with a group over a longer period of time to produce a more in-depth CD incorporating other musicians and instruments
- A video diary of the whole process.
