

scrapheap challenge

An industry of sound - you can't escape!

Dustbins, car wheels, drain pipes, scrap metal an industry of sound, a remarkable session creating a huge array of sounds and rhythms that will leave you animated, amazed at your achievement and optimistic about life.

The Scrap Heap Challenge is an amazing journey with inanimate objects constructing new boundaries in music making.

See overleaf for more information on our BIG noise sessions.

THE CHAIN GANG

A unique instrument invented by Big Beat involving bin lids and chains!

BAT PHONES

Drainpipes with u-bends make for an interesting resonance. Played with bats, drainpipes will never seem the same again.

CAR WHEELS

A wheely good metal sound thrashed out on old car wheels, minus the rubber!

FUNKY BIN SECTION

Play that funky bin, with broom handles and energy. It's not a rubbish sound but a clatter of metal providing the driving hum for the whole group.
